Popular Fugues

Canticles, Concertoes, Paeans, and Funeral Marches! All together! A one-time-only offer!

Now 37% more dirgeful!

DJ Poseur's second organ mix.

It's been almost four years since DJ Poseur rolled out the original organ compilation, and perhaps to hint at the title of the third one, everything's being reorganized! These modern classics come mostly from the last five years, as artists in all styles of music have sought to differentiate themselves from the standard formulas of sound and add some sooooooul! As the Hammond and Rhodes have here been de-excommunicated, why go to church ever again?!
